Class participation:

IRSC's PTA Program relies heavily on active participation of learners. The learning activities are designed to prepare you for your final performance of each competency. Being ill-prepared in the clinic could jeopardize your safety and that of others, could damage expensive equipment, or could result in economic losses when products are not up to specification. During the course of the program, you will be expected to be in attendance just as you would be on the job; both physically and mentally.
